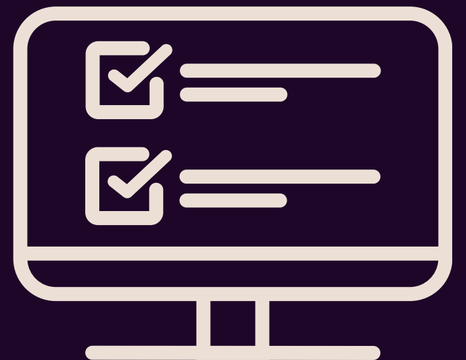
PROBLEM STATEMENT

Existing manual student counselling procedures suffer from decentralization and manual intervention, resulting in diminished productivity, increased error rates, and accessibility challenges.

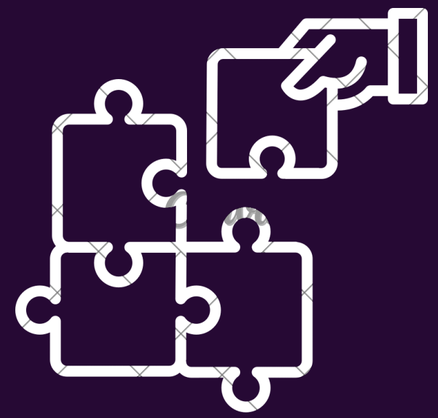


WHAT IS COUNSELLING SYSTEM

What do counsellors maintain?

- Personal details.
- Academic details(marks and grades).
- Attendance.
- Achievements.

PROBLEMS IN AN OFFLINE COUNSELLING SYSTEM



- Data accessibility issues.
- Time consuming process.
- Increase in work load.
- Record management issues.
- Non-periodic offline counselling sessions.

Project Description

The goal of this project is to design and implement an efficient Counselling System that automates and streamlines the processes of student registration, enrollment, and information management. The system should provide a centralized platform for real-time access, updates, and retrieval of student details, enhancing administrative efficiency and accuracy.

FEATURES

- Student profile.
- Attendance tracking.
- Mobile accessibility.
- Communication tools(Chat box,mails,notifications) .
- Students support services(Counselling,career guidance).
- Reporting and Analytics.
- Staff(Counsellors) details.
- Leave form and gate pass.

CONSTRAINTS

- Staffing shortage.
- Difficult in keeping data consistent across many platforms and users.
- Data integration.
